Introduction to Tube Jacker

Online video is absolutely exploding and continues to be one of the most effective methods of establishing and promoting a brand, while securing everlasting traffic from all of the major search engines.

On the Internet's most popular video community, YouTube.com, there are approximately 60 hours of video uploaded every minute of every day. Think about that. It is equal to ***one hour of video content uploaded per second!***

It is estimated that by 2015, at least **90% of all Internet traffic** will be video based. Companies like Cisco and major ISPs are working around the clock to develop new technologies that can be adapted to handle such an enormous amount of bandwidth, as current technology isn't prepared for it!

YouTube is the **fourth most popular website in the world**, and gets a tremendous amount of traffic every day. If you're not using this video powerhouse for marketing, you're missing out on a huge source of **high quality, exceptionally targeted – FREE - traffic!**

In fact, there has **never** been anything quite like this before. What other type of media gives you access to millions of potential viewers at **absolutely no cost**? Billboards certainly don't. Radio doesn't. Television certainly doesn't. And considering all online forms of advertising such as banner ads, forum campaigns, PPC marketing, sponsor ads, ezine ads or even social media marketing – none of those options provide you with the ability to generate lifetime traffic at absolutely no cost.

That's free – no strings attached – targeted traffic at your fingertips. You can direct it anywhere you wish, convert it anyway you choose, and command it whenever you desire. Through the power of targeted video presentations and ad
