Introduction

There are plenty of products on the market for consumers to choose from. Most of the time they evolve based on the needs of society. When there is a trend taking place then you will see many different products emerge that can meet the new need people have.

Some of them have been around for many years but people just don't notice them. They aren't recognized until there is a significant need for them. Older products may change how they advertise and even change the name of the product in order to get a facelift in the public eye.

It is no secret to anyone that gas prices have continued to rise to unbelievable prices over the past couple of years. While there has been a steady increase all along, nothing has taken place like it has in the past six months. It seems like the prices at the pumps are increasing every couple of days.

That has many consumers scared to death and scrambling for a solution. They aren't making more money but continue have more expenses to cover. The more you drive your vehicle the more you are affected by these increasing fuel prices. It can be a very scary time if you already have a thin budget to work with.

It may only be by a few cents but that quickly adds up to too much per gallon. The fact that the prices tend to go up every week isn't helping. In the end you are likely paying more money when you fill up than ever before. This has also led to an increase in the cost of everything else.

That is because it is taking more money for suppliers to get it delivered. All of that price increase is being passed on to the consumer. Trucking companies have to
