Chapter 1: Introduction

You've probably heard a lot about Google AdSense (which is actually more accurately known as Google AdSense V1), but you may not know just what it is. Well, for one thing, it's a one of the hottest new ways to make money online without having to do a whole lot. If you've read Robert Kiyosaki's book, "Rich Dad, Poor Dad," you know that passive income is the best kind of income to have.

Passive income is income that you get without having to work for it. I know this may sound like some kind of "pie in the sky" get-rich-quick scheme, but passive income is for real. In fact, every single billionaire on earth uses the power of passive income to keep money coming in while he or she jets off to parties and resorts and such.

The best example of passive income in the physical world is real estate. When you own an apartment building and hire a property manager and a maintenance crew to take care of it for you and collect the rents, all you have to do is cash the checks that roll in.

Of course, passive income doesn't just happen overnight, or everyone would be getting it. In the case of the apartment building owner, it took money, time, and knowledge to set up an S corporation, find a building to buy, put up the cash to buy it with and get a loan for the rest, renovate it, then screen and hire the property manager and maintenance crew. But once that was all done, checks began rolling in with little or no effort.
