INTRODUCTION

More people than ever are considering the benefits and the end results of plastic surgery. With the advancements in surgery and in the way the body can be shaped, it's hard not to resist the lure of the knife and what it can do for your body.

While 92% of all cosmetic surgery patients are women, men are becoming patients more often as well. Your appearance matters in the business world as well as in your personal life, so why not take steps to secure your looks for as long as you can?

But cosmetic surgery is not as simple as it sounds; neither is the decision whether or not to have it in the first place. In order to ensure you're making the best decision for yourself and for your body, you need to consider these medical procedures with a great deal of care.
